DENT TOOLS

*Professional PDR Tools and Accessories*

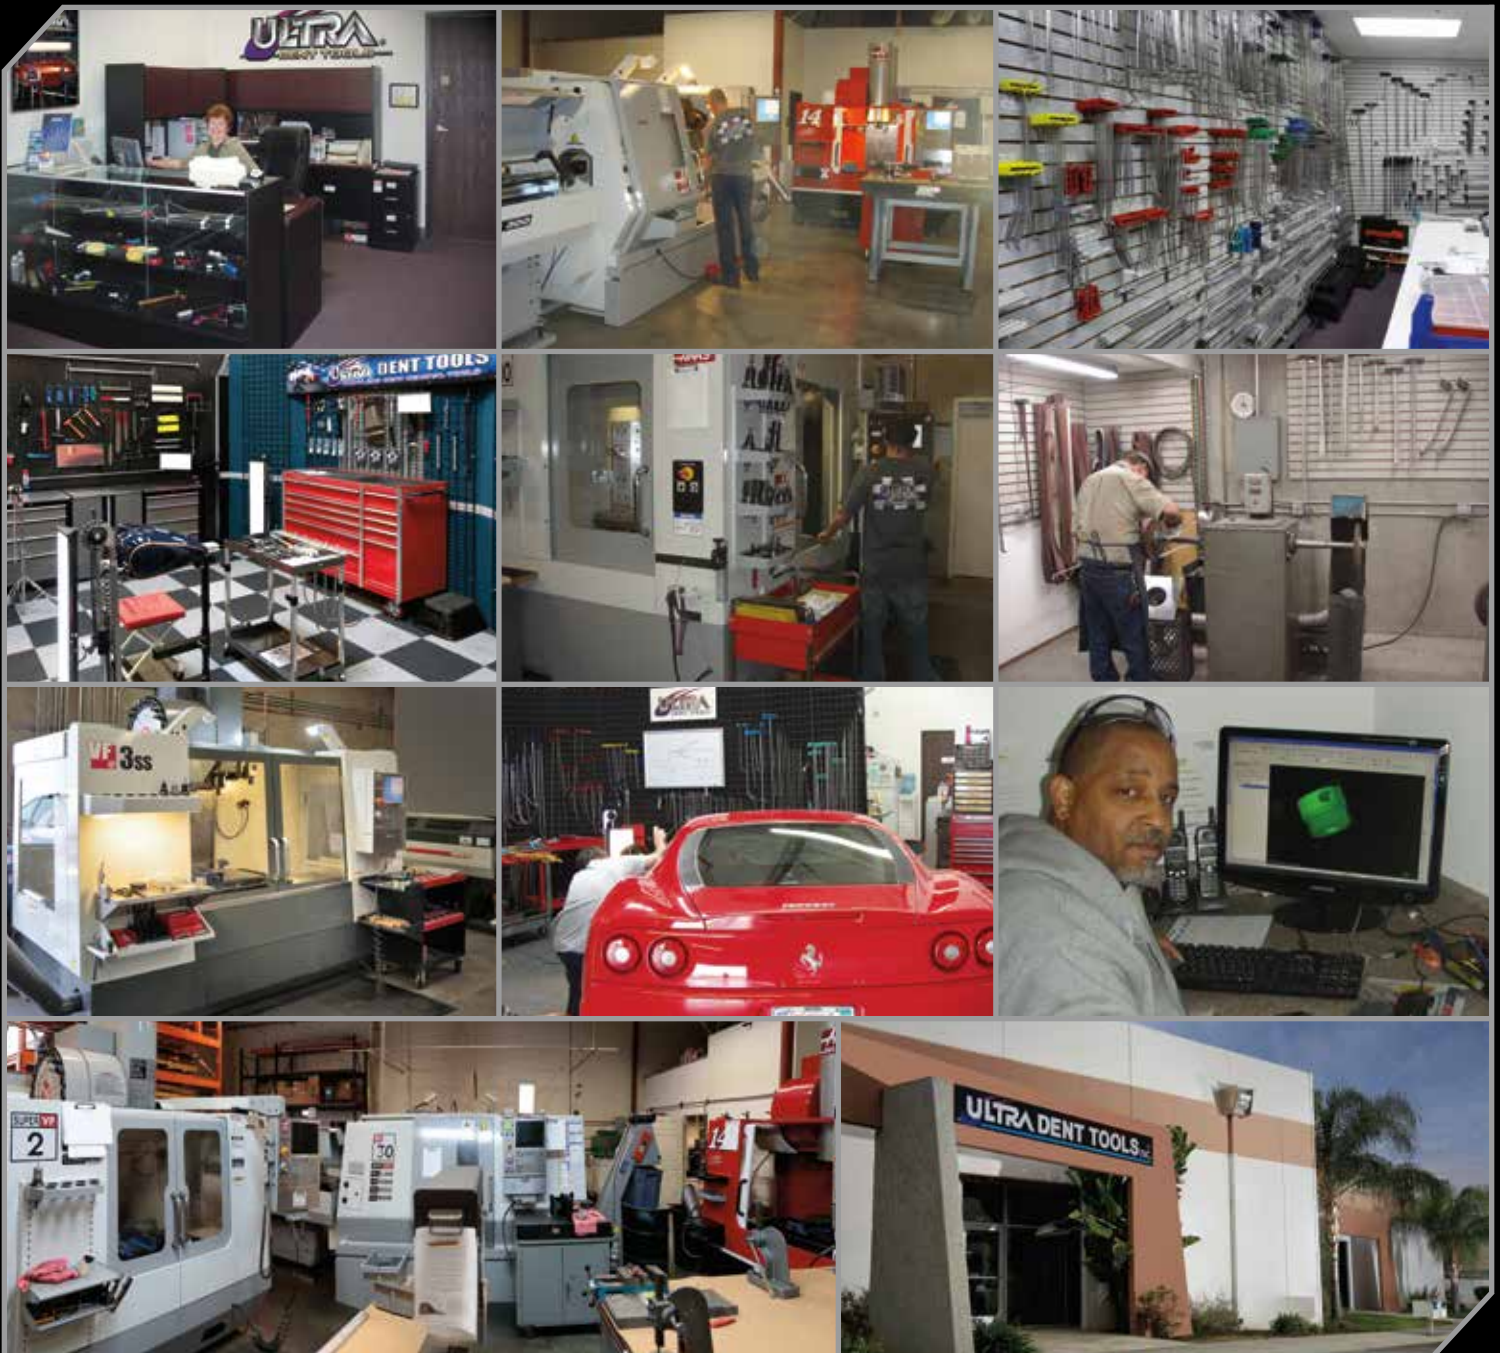

# Ultra Dent History

Ultra Dent Tools was founded in 1998 in Riverside, CA by Steve Hopf. Steve formerly owned California Customizing, a body shop well known for high quality custom paint & body work. With an extensive background in the body shop business, he saw the need for Paintless Dent Repair tools in the industry. He started his own shop and since then has created the most innovative PDR tools available. We now sell our products worldwide and offer the best quality and selection hands down.

We are the premier manufacturing and distributing company in the world for paintless dent removal tools & accessories. We offer the widest product line available. We have a unique patented handle design that sets our tools apart from any other PDR tools. Ultra Dent Tools, Inc. constantly strives to create cutting edge PDR products. Due to the constant improvement of our product designs, our customers get the best PDR products in the world.

## Thanks for being our customer!

*"Paintless dent removal has been one of the biggest breakthroughs in the automotive repair industry's recent history."*

At Ultra Dent Tools we have perfected the craft and paved the way for the future of the industry by developing the highest quality and most effective product line of PDR tools and accessories on the market.

Our success in the business has come from understanding PDR from a technician's viewpoint, and also a willingness to listen and learn from other technicians around the world on what tools work in our trade.

We are a satisfaction-oriented company that goes the extra mile to take care of our customers.

I hope you enjoy our selection of fine tools and accessories. We are continually developing new tools and accessories, consequently this catalog may not contain our latest products. Visit our website for new products and accessories.

Sincerely,

Steven L. Hopf  
President

**Ultra Dent Tools come color coded so that you work faster, not harder! Custom colors are available upon special request.**

*Custom colors and tools are subject to additional charges and extra shipping time.*

## Ultra Dent Tools Warranty Statement

ULTRA DENT TOOLS, INC. has an LIFETIME WARRANTY against breakage or corrosion on all of our stainless steel tools that are 3/16" diameter or larger. All 1/8" diameter, flaretips, and shaved tools come with a one-year limited warranty. Ultra Dent Tools spring steel 5/32", 1/8", .100 and flaretips come with a one-year limited warranty. One-Year Warranted tools will only be replaced one time. Proof of purchase required. Our warranty does not cover misuse of any tool. All warranty tool replacements require the return of the original tool being replaced to an Ultra Dent Tools facility. Ultra Dent Tools, Inc. Light products are warranted for one year for materials and workmanship, and 90 days for internal electrical components. Our LED lights are completely covered for one year.

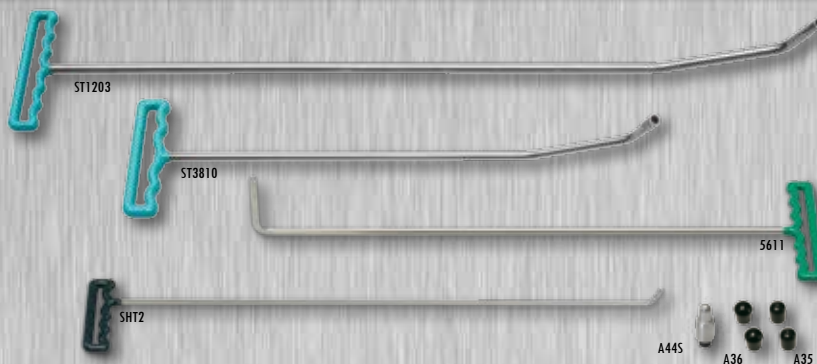

## Set #1

### Mini Starter Set - 4 Piece

This is an inexpensive set for the beginner. It contains 4 essential tools you need to start training.

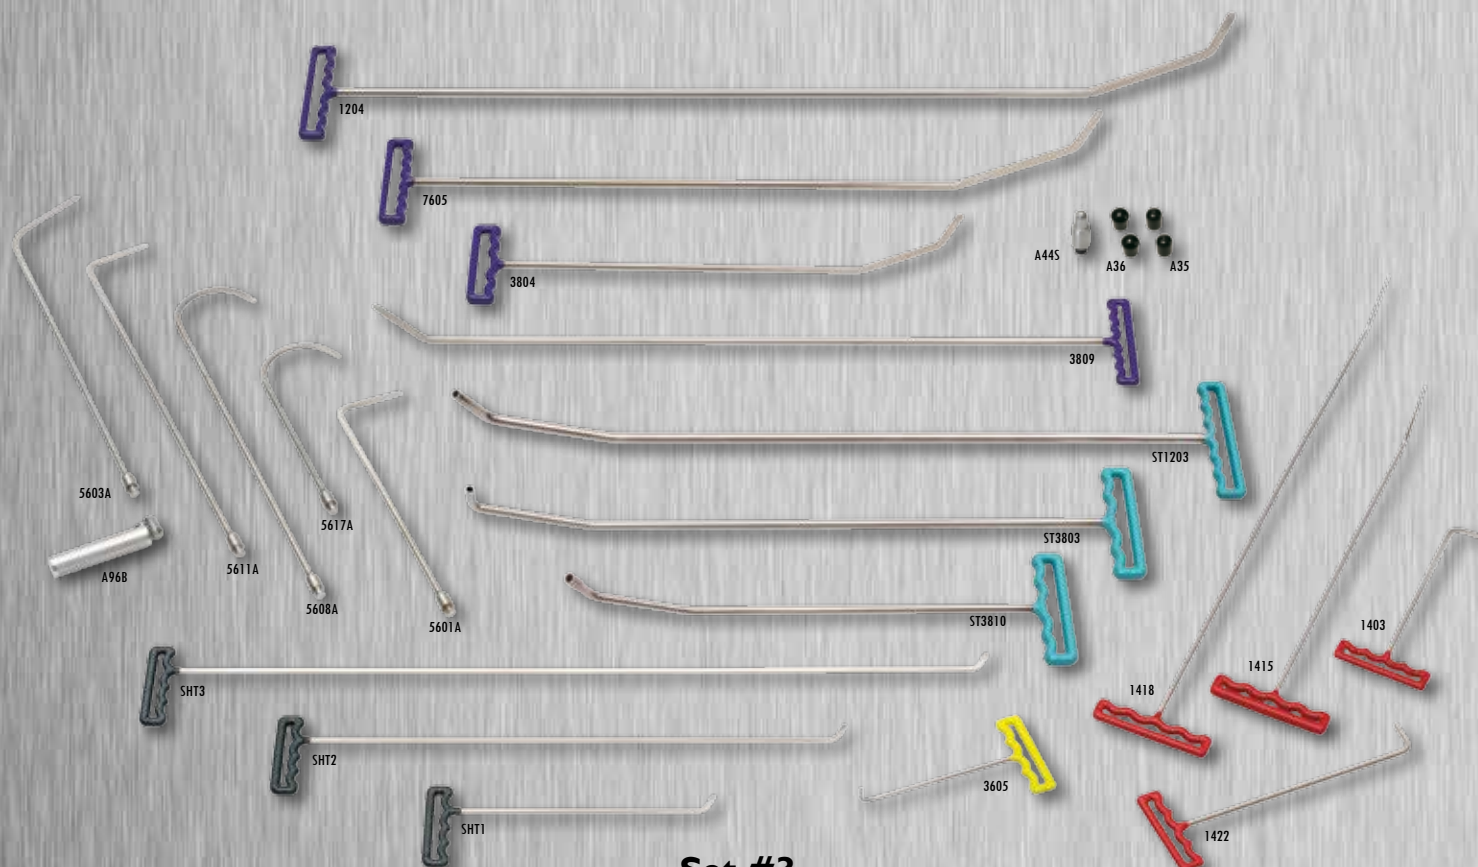

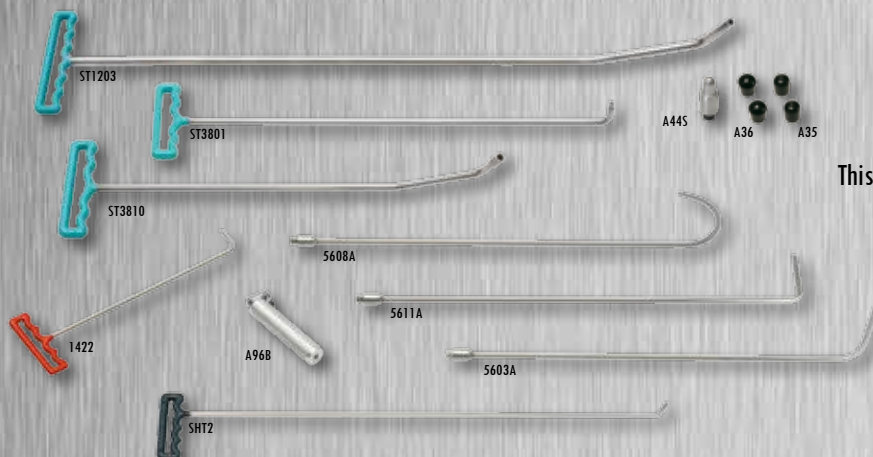

## Set #2

### Starter Set - 8 Pieces

This is an inexpensive set for the beginner. It contains all the basic tools for most dents.

"JUST GOT MY NEW ROD TODAY WITH THE CHANGEABLE TIPS. WOW! I'M IMPRESSED! IT'S VERY NICE QUALITY! IT'S NICE TO KNOW THERE IS STILL SOME PRIDE LEFT IN THE U.S.A. THANK YOU FOR THE NICE TOOLS."

DAVID POLL, AMERIPRIDE, GILLETTE, WYOMING

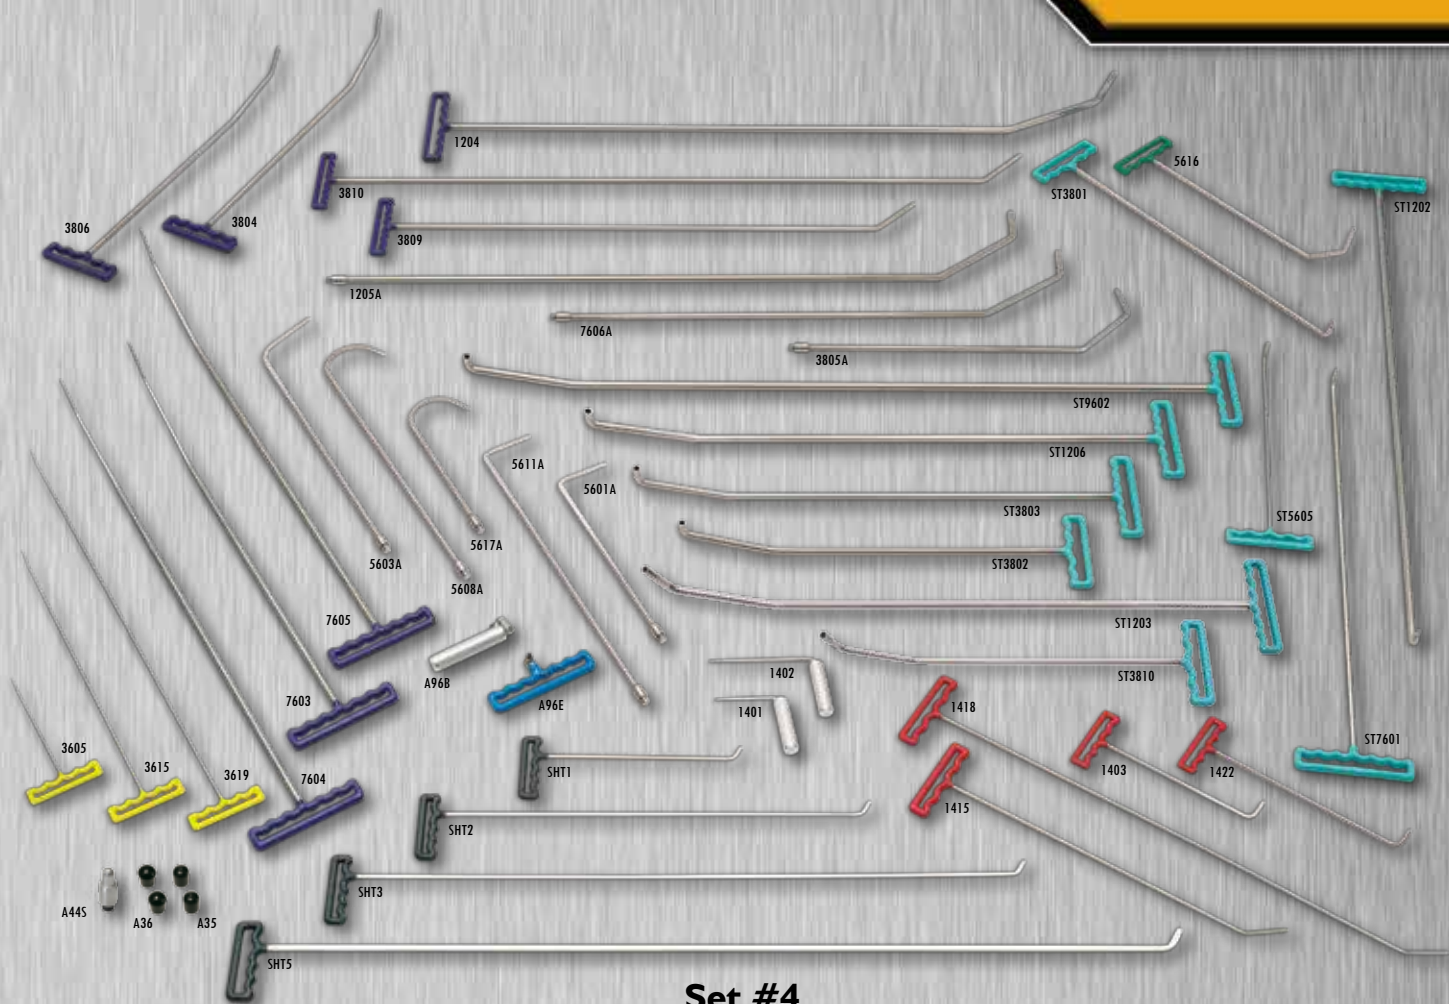

## Set #3

### Basic Set - 20 Pieces

This is a very useful set of tools. Between the adjustable and interchangeable handles, screw-on soft tips, and bendable tools, you have a perfect set for the body shop and dealer environment. These 20 tools will do the work of most 40 piece sets.

### Set #4

#### Professional Set - 40 Pieces

This set is designed to do the work of 60-70 tools. By far the most versatile and effective 40 tools on the market. Ideal for professional mobile dent technicians.

**Successful dent removal begins with choosing the right tip. Ultra Dent Tools tip selection can't be beat. Our standard sets include a variety of the tips you need!**

#### Ultra Tool Tips Perform!

#### Flat Bar

#### Blade

#### Pick

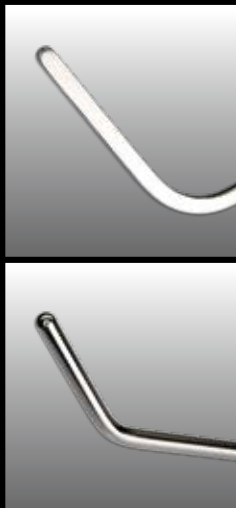

#### Screw-on

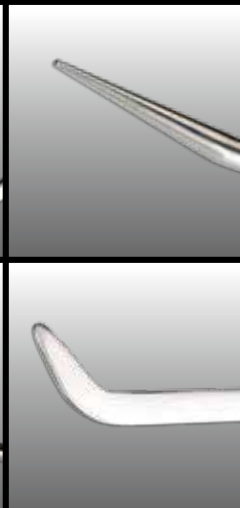

**Flaretips**

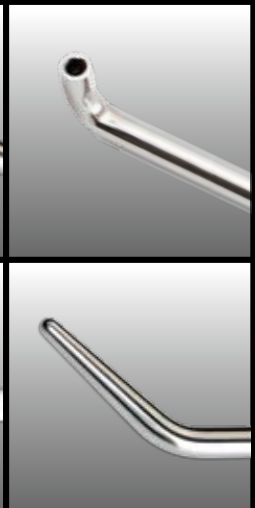

**Soft Tip**

**Ball Tip**

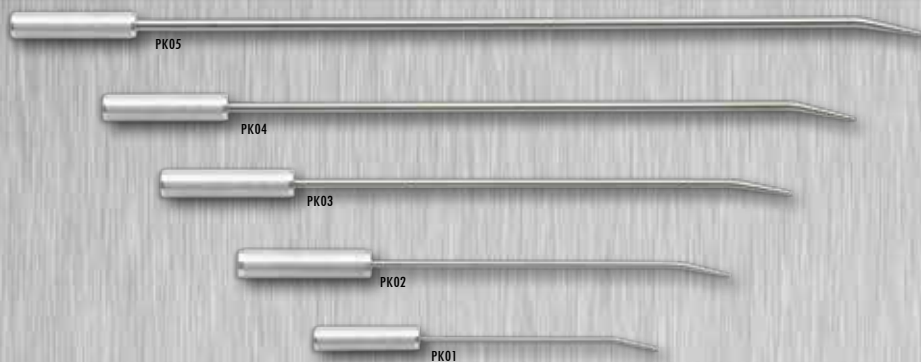

**Blade Pick**

**Bullet**

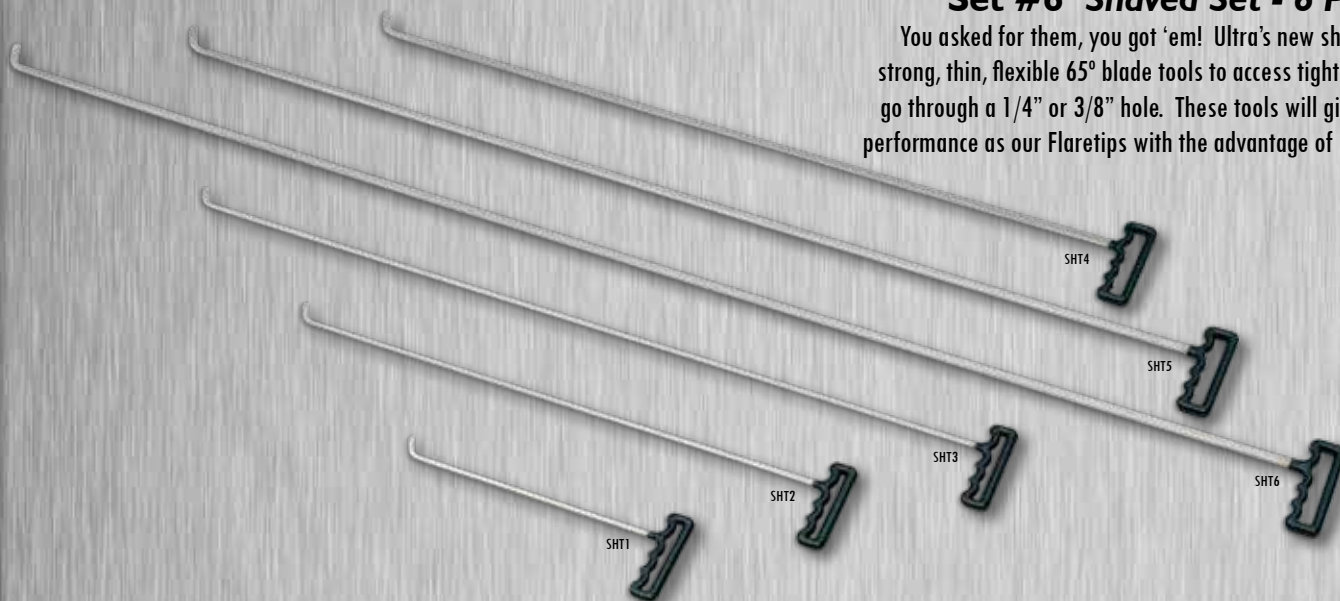

## Set #5 Pick Set - 5 Pieces

These picks allow more handle clearance in confining areas. The sharper ends work great for fine tuning. These tools are good for aluminum and hail repair.

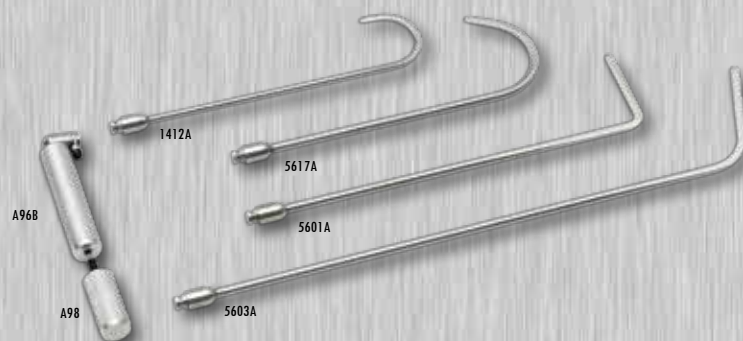

## Set #6 Shaved Set - 6 Pieces

You asked for them, you got 'em! Ultra's new shaved tools are strong, thin, flexible 65° blade tools to access tight areas. They will go through a 1/4" or 3/8" hole. These tools will give you the same performance as our Flaretips with the advantage of a single 65° blade.

## Set #7 Door Set - 4 Pieces

These are our 4 most popular door tools. The comfort, strength and versatility of these 90° tools is unmatched. 4 tools are adjustable in 8 positions. The handle extension can be used for added leverage.

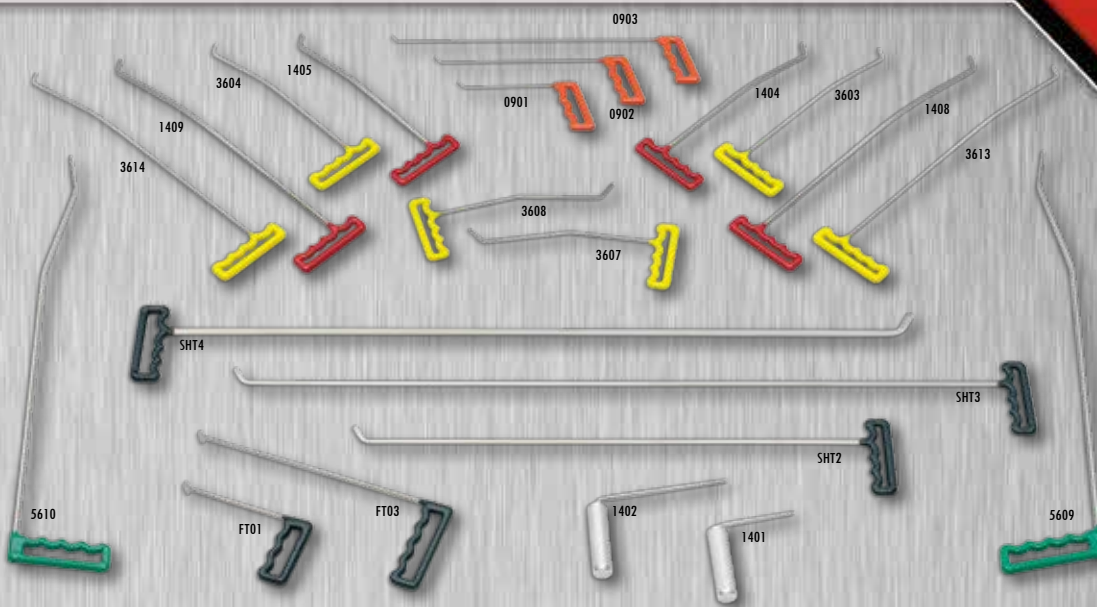

"SINCE I DISCOVERED ULTRA DENT TOOLS IN 1998, I CAN HONESTLY SAY THESE TOOLS HAVE TO BE THE BIGGEST INFLUENCE IN REGARDS TO THE QUALITY OF MY DENT REPAIRS. THE CRAFTSMANSHIP OF THE PDR TOOLS ARE SECOND TO NONE AND ARE TRULY INVALUABLE TO MYSELF AND MY TECHNICIANS."  
MYKE TOLEDO, DENTTIME.COM, SAN DIEGO, CA

## Set #8 Door Set 8 Pieces

This is the ultimate set for door dents. All these tools have our adjustable and interchangeable handles so you can create the optimum comfort and leverage for any application.

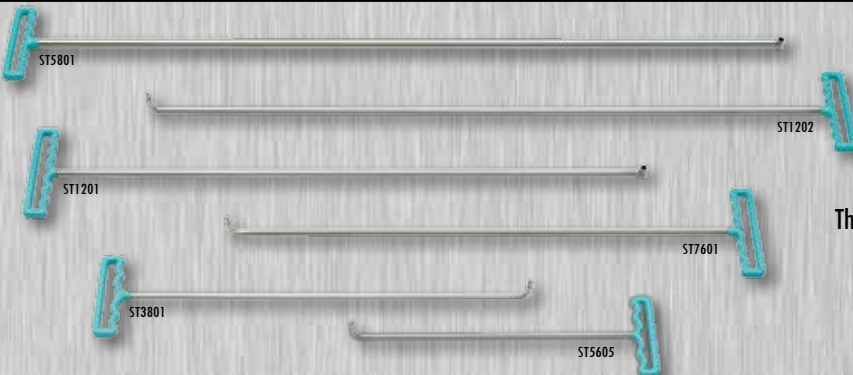

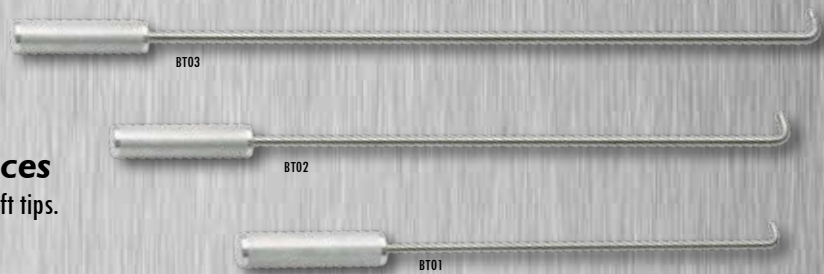

## Set #9 Hail Set - 22 Pieces

The ultimate hand tool set. It contains tools to get to those difficult areas in braces and around edges. Our new shaved tools are just as thin as an 1/8" wire tool yet have 3 times the drive.

## Set #10 In-Line Soft Tip Set - 3 Pieces

This set combines handle clearance along with the benefit of soft tips.

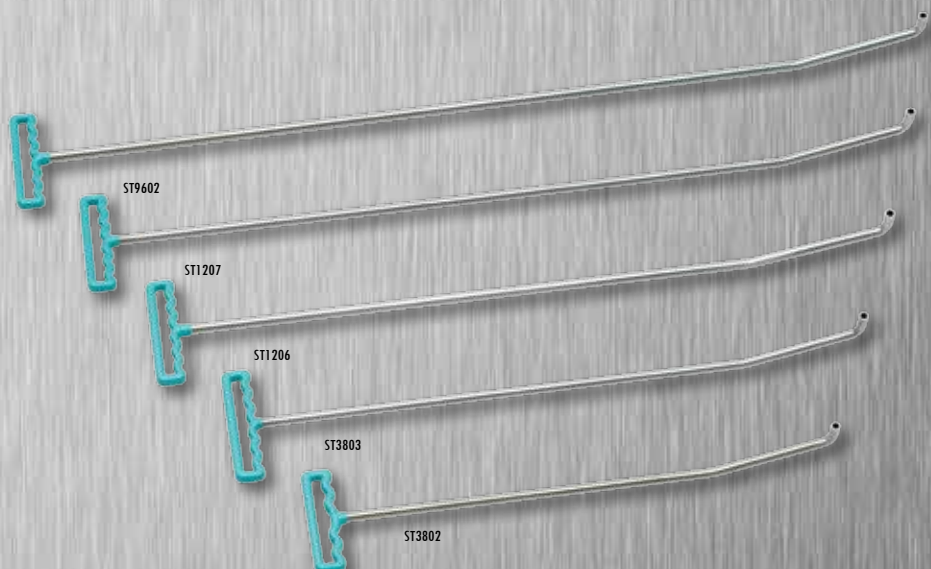

## Set #11 Soft Tip Set - 6 Pieces

This set includes 4, 90° soft tip rods and 2 double sided hail rods. Tips sold separately.

## Set #12 Soft Tip Set - 5 Pieces

The ST3802 and ST1206 were so popular we designed 3 more tools that help cover the full spectrum of lengths: 24", 30", 36", 42" and 48". Tips sold separately.

New 5/16" - 18 female stud size

Smaller 10-32 Size Available

## Set #13 Standard Flaretip Set - 4 Pieces

These standard 1" head Flaretips have a very thin beveled shaft. The tips have a knife edge for glue cutting. They are extremely strong yet flexible.

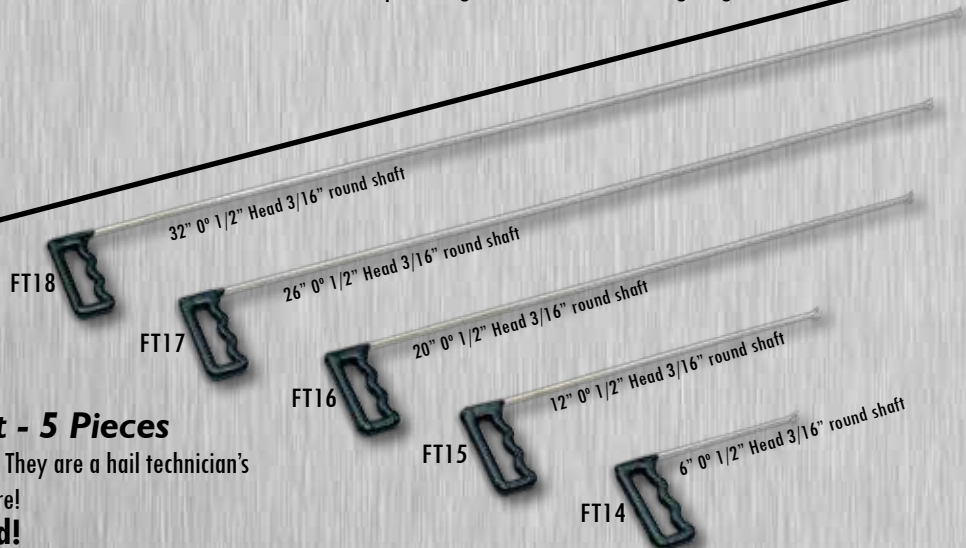

## Set #14 Wide Head Flaretip Set - 4 Pieces

This is the strongest set of Flaretips on the market. They have a 1/8" x 3/8" thin shaft with a 1-3/8" head and are unbelievable on bigger door dents in braced areas.

## Set #15 3/16" Wide Head Flaretip Set - 3 Pieces

The thicker 3/16" x 3/8" wide shafts as well as the 1-3/8" head on these tools provide great drive for their long length.

## Set #16 Mini Flaretip Set - 5 Pieces

These tools have a 1/2" head with a 3/16" thick shaft. They are a hail technician's best friend. They fit anywhere!  
**Plus they are forged!**

### Set #17 5/8" Breakdown Bar Set - 8 Pieces

Ideal for the mobile tech when weight and space are an issue. This set makes a combination of 40 different rods. With the A45 tip set, a multitude of variations can be made and the double sided screw-on tip can be used with tips on one or both sides. These rod sections can be screwed together and tightened with two wrenches then simply knock a dowel pin through the hole. This process takes about 1 minute and allows these sections to work like a solid bar and they are interchangeable! The lengths the set makes with 4 rod ends are: 36", 42", 48", 54", 60", 66", 72". 3 foot to 6 foot in 6" increments.

### Set #18 3/4" Breakdown Bar Set - 5 Pieces

This set makes a combination of 8 different rods. With the A45 tip set, a multitude of variations can be made on the double sided screw-on rod. The same design as Set #17, just a larger dia. rod. The set makes 5', 6', 7' and 8' long rods with 2 different tip ends. Good for hail on compatible SUV and van roofs plus truck bed sides.

## Attention Body Shop Professionals and New PDR Technicians

By using Ultra Dent Tools as an aid in your daily body repairs you can decrease your body labor time 30-50%, while training yourself in PDR at the same time. Take action on PDR for your body shop with the most useful tools available.

### Set #19 Intro Economy Set - 10 Tools & 10 Accessories

This set includes 10 of the most useful PDR tools available with 10 accessories. This is a perfect entry-level set for a new PDR technician.

#### Ultra's Results:

- Increase productivity
- Shorten repair cycle time
- Minimize repair area
- Use less material
- Eliminate blend panels
- Ease color match issues
- Metal finish faster and more complete

***These tools have a shorter taper on the blades and a brushed finish instead of a mirror polish on the stainless. The majority of them have the adjustable handle feature.***

### Set #20 Basic Economy Set - 20 Tools & 15 Accessories

This set includes 20 of the most useful PDR tools available with 15 accessories. This is the recommended starter set for anyone who wants to go into the Paintless Dent Removal trade.

- Trademark soft tips and protective caps won't break paint and protects E-Coat.
- Screw-on tip tools make fifteen different combinations.
- Bendable tools make multiple variations.
- Adjustable handle tools give you eight different positions
- 100% Stainless Steel
- Lifetime Warranty
- Made in the U.S.A.

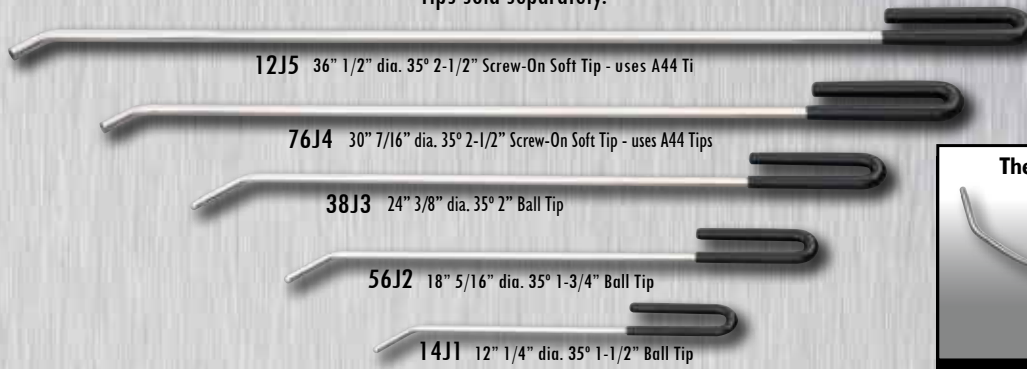

***Both packages come with instructional DVD's that will get you started on your own today!***

## Set #21 Bendable Johnsons - 5 Tools

Bendable soft tip tools with in-line handle. 76J4 and 12J5 take screw on tips.

Tips sold separately.

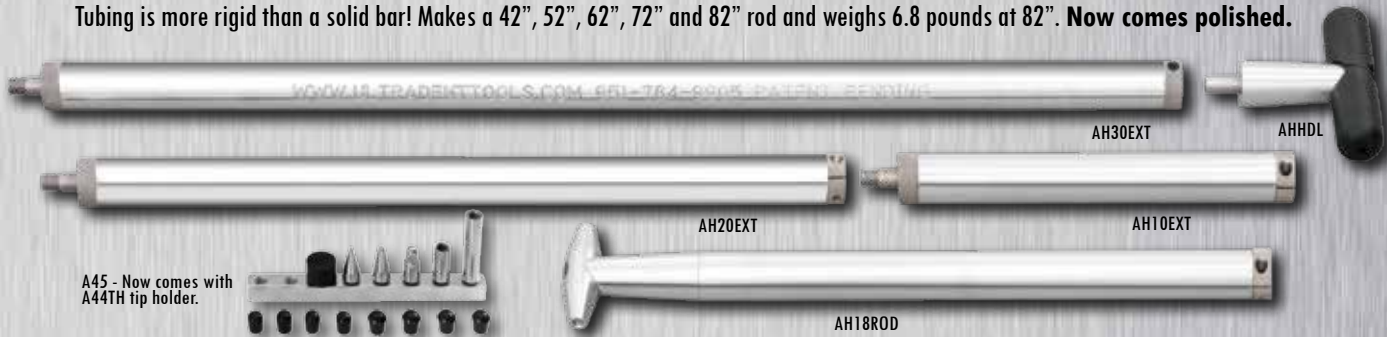

These tools are easily bent to desired shape.

Bendable yet strong enough to drive.

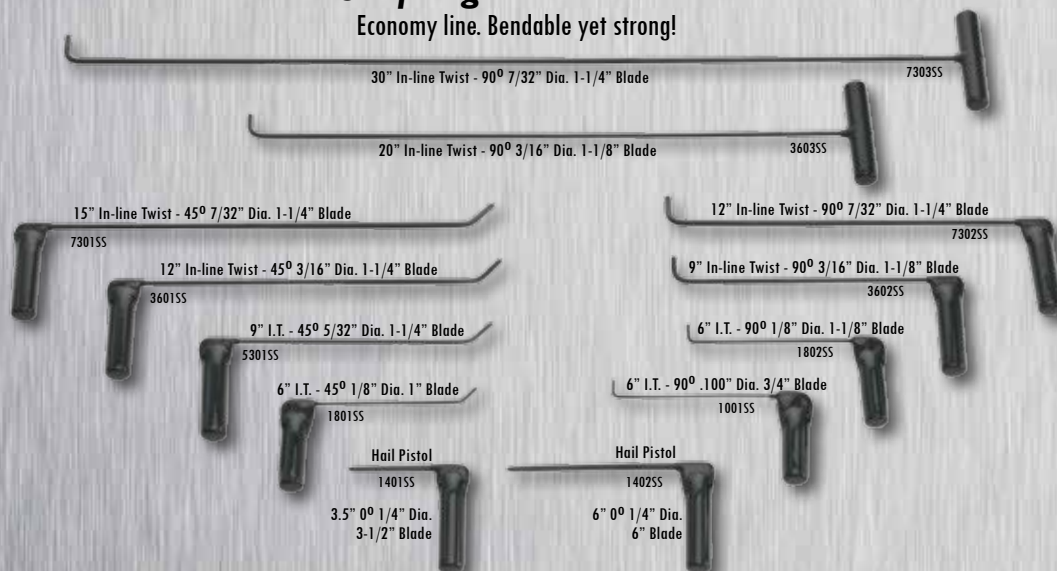

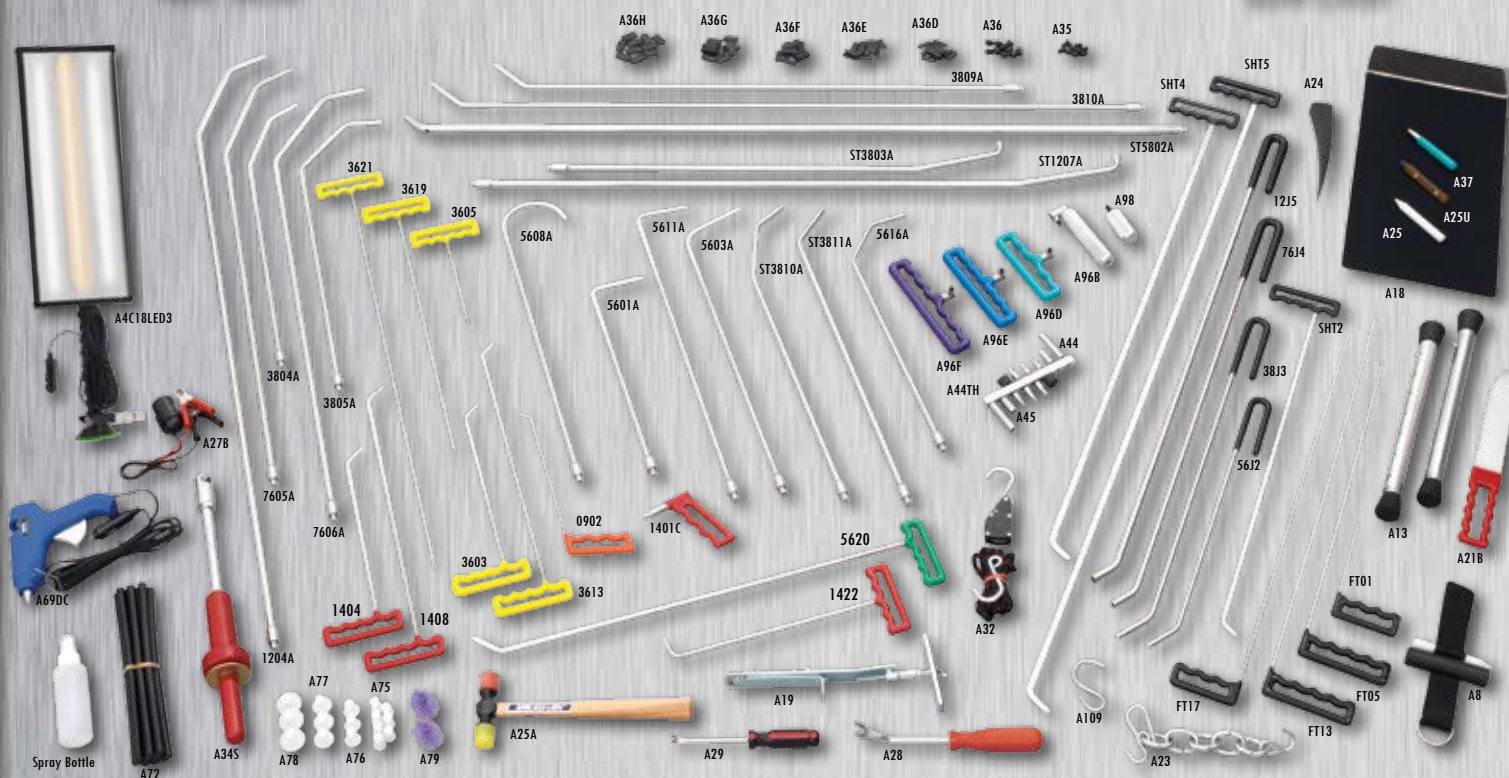

## Set #22 Hail Rod

Aluminum tube hail rod system with locking collars and adjustable handle. Our lightweight 1-5/16" 6061 Tubular Rod yields superior rigidity! Tubing is more rigid than a solid bar! Makes a 42", 52", 62", 72" and 82" rod and weighs 6.8 pounds at 82". **Now comes polished.**

### Hail Rod Accessories sold separately

# ROLLER RODS & TIP SETS

Roller Rod Tips allow you to apply more pressure to the panel without leaving a high spot, therefore increasing the visibility of the tip. They allow you to make final adjustments toward the center of the low while under pressure, making it easier to hit the exact low quicker. They allow you to repair larger, deeper dents with less tendency to break the paint or stretch the dent. The density of these wheels give you **THE ULTIMATE SOFT TIP!**

**SET #29A**

**SET #29B**

**GET THE LATEST  
TECHNOLOGY IN  
PDR!**

Roller tip wheels come in a sharp profile for finishing dents and flat wheels for larger dents.

Tips are available in a hard or soft density plastic.

Replacement wheels available see price list.

All Roller Tips come with The Roller Rod Wrench

# MPDR TOOLS

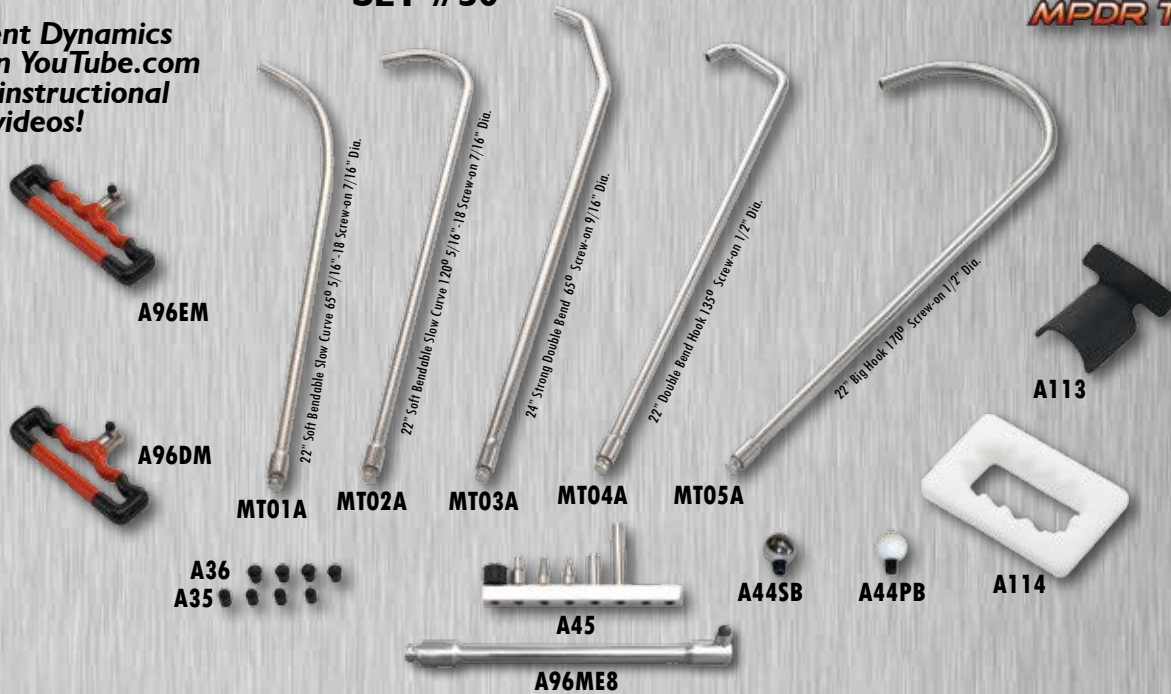

Daniel Gromm has been doing paintless dent repair for 17 years and specializes in taking dents out of motorcycle tanks. Take your PDR business to the next level by offering this great service. Take advantage of Daniels proven MPDR set of tools to get big results on motorcycle tanks!

"THANKS FOR ALL YOUR HELP AND PATIENCE... ONCE AGAIN! I USED TO ORDER FROM DENTCRAFT, BUT NOW I ONLY USE THEM FOR TIPS AND GROMMETS. I FIND YOUR TOOLS ARE MUCH LIGHTER AND STRONGER. EUROPEAN CARS ARE MUCH HARDER TO WORK ON AND ACCESS CAN BE VERY DIFFICULT AT TIMES, SO THINNER, STRONGER TOOLS ARE GREAT!. IT'S GREAT TO HAVE A SUPPLIER WHO TAKES PRIDE IN WHAT THEY DO."

2" Shaft 2" Blade

The soft tip tools are the most effective and versatile tools to hit the PDR market. Not only do they satisfy insurance company requirements, but they allow technicians to remove huge dents effortlessly. And you can remove smaller, sharper dents with the same tool. The secret behind the success of these tools is the perfect fit between the ball tip with a machined shoulder and the durable rubber and vinyl push-on caps. This allows an extreme amount of pressure to the tip without breaking through the cap. These tools can be used on sharper dents with the cap on to bring up the majority of the low without breaking the paint. Then the dent can be finished with the ball tip for excellent results. Big dents can virtually be removed start to finish without any visible tool marks. These tips will also go easily into a 1/2" hole or go through a window seal without losing the cap. The caps are inexpensive and are available in any quantity. We now have A35 hard black vinyl push on caps for our soft tip tools. These caps are even more durable than our standard A36 caps and they push dents more precisely.

The screw on soft tip tools allow you to make 15 different tip variations with a tip set (sold separately).

"THANKS FOR THE QUICK SERVICE, I COULD NOT LIVE WITHOUT THIS TOOL. THE SOFT TIP TOOLS HAVE ALLOWED ME TO REPAIR LARGE COLLISION TYPE DENTS EXPONENTIALLY FASTER THAN PREVIOUSLY WITH OTHER TOOLS."  
RICHARD ROUSTON, DENT MASTERS, FALLS CHURCH, VA

These adjustable/interchangeable handles will give you tremendous versatility with fewer tools. You will no longer need the right and left hand versions of our door tools. One tool will give you eight different positions. Best of all, one handle can be detached and used on any other tool. The standard adjustable handles pull on and off like a socket. Our new quick release handles lock onto the tool and can be released by pulling back on the ring. They include a spring-loaded ball that snaps into the groove of the male.

### Positionable on 8 Points

# Handle Tools & Octagonal Accessories

## Adjustable Handle Tools

Our octagonal male socket is bored for a precision fit and TIG welded. You can even send us your favorite tool and we will add the male octagon. Ultra's adjustable tools come standard with the 8 point male joint. The male joint is available on any tool 1/4" diameter or larger. Just take the list price of any tool and add the male joint price. Then add the handle of your choice!

works on fluorescent  
and LED lights

The A1B Portable PDR Light is a super lightweight roll around shop light that is designed for the mobile dent technician. This light breaks down to fit in a 10"x 10"x 42" space and weighs only 21 lbs (24 lbs boxed weight). This light will extend up to 9-1/2' which is sufficient height for any truck or sport utility vehicle. The pivot head swings the boom 180°. The pivot collar adjusts with a simple thumbscrew. The light fixture spins 360° and you can set the pitch more than 90° in any direction on the pivot ball. Our custom 3" plastic V-Shield fixture provides the optimal angle to produce the broadest fade available and is scratch-resistant. Our light provides the single biggest advantage for doing quality PDR work. An optional striped, white or neon yellow lens cover with black fade is available.

**A1B Fully Extended**

**Lens Covers**

## Ultra's YouTube Videos

Ultra Dent Tools is constantly improving upon our products, technology and service. Ultra's YouTube videos are just another information source now available on the web.

## Basic Training Instructional Video

A47D

Paintless dent removal training videos in our industry leave quite a bit to be desired. This is the reason at Ultra Dent Tools we have produced a basic training video that can actually produce results in a student's beginning stages of training.

This video goes into much more detail about the principles and techniques of this craft. You will learn the different aspects needed to become a successful PDR technician. This includes 90 minutes covering all the pertinent topics. Some of which include:

- Tool tip location exercises
- Reading the light inside the shop and outside
- Technical chalk board diagrams & instruction
- Inside views demonstrating access methods
- Access techniques on all panels of a vehicle
- Tool and accessories choices for best results

A48D

## Glue Pulling Fundamentals Video

Check out the tricks to using the glue puller kit with our 22-minute video. Learn how to pull small and large dents from difficult areas of a vehicle in a matter of minutes.

## Body Tech Instructional Video

This 30 minute video demonstrates the advantage of using Ultra's PDR tools as an aid in your daily body repairs. You will see where and how each tool and accessory are used. With real time demos of just how effective our tools can be even to the beginner.

A46 4-Pack DentTime Training DVD's

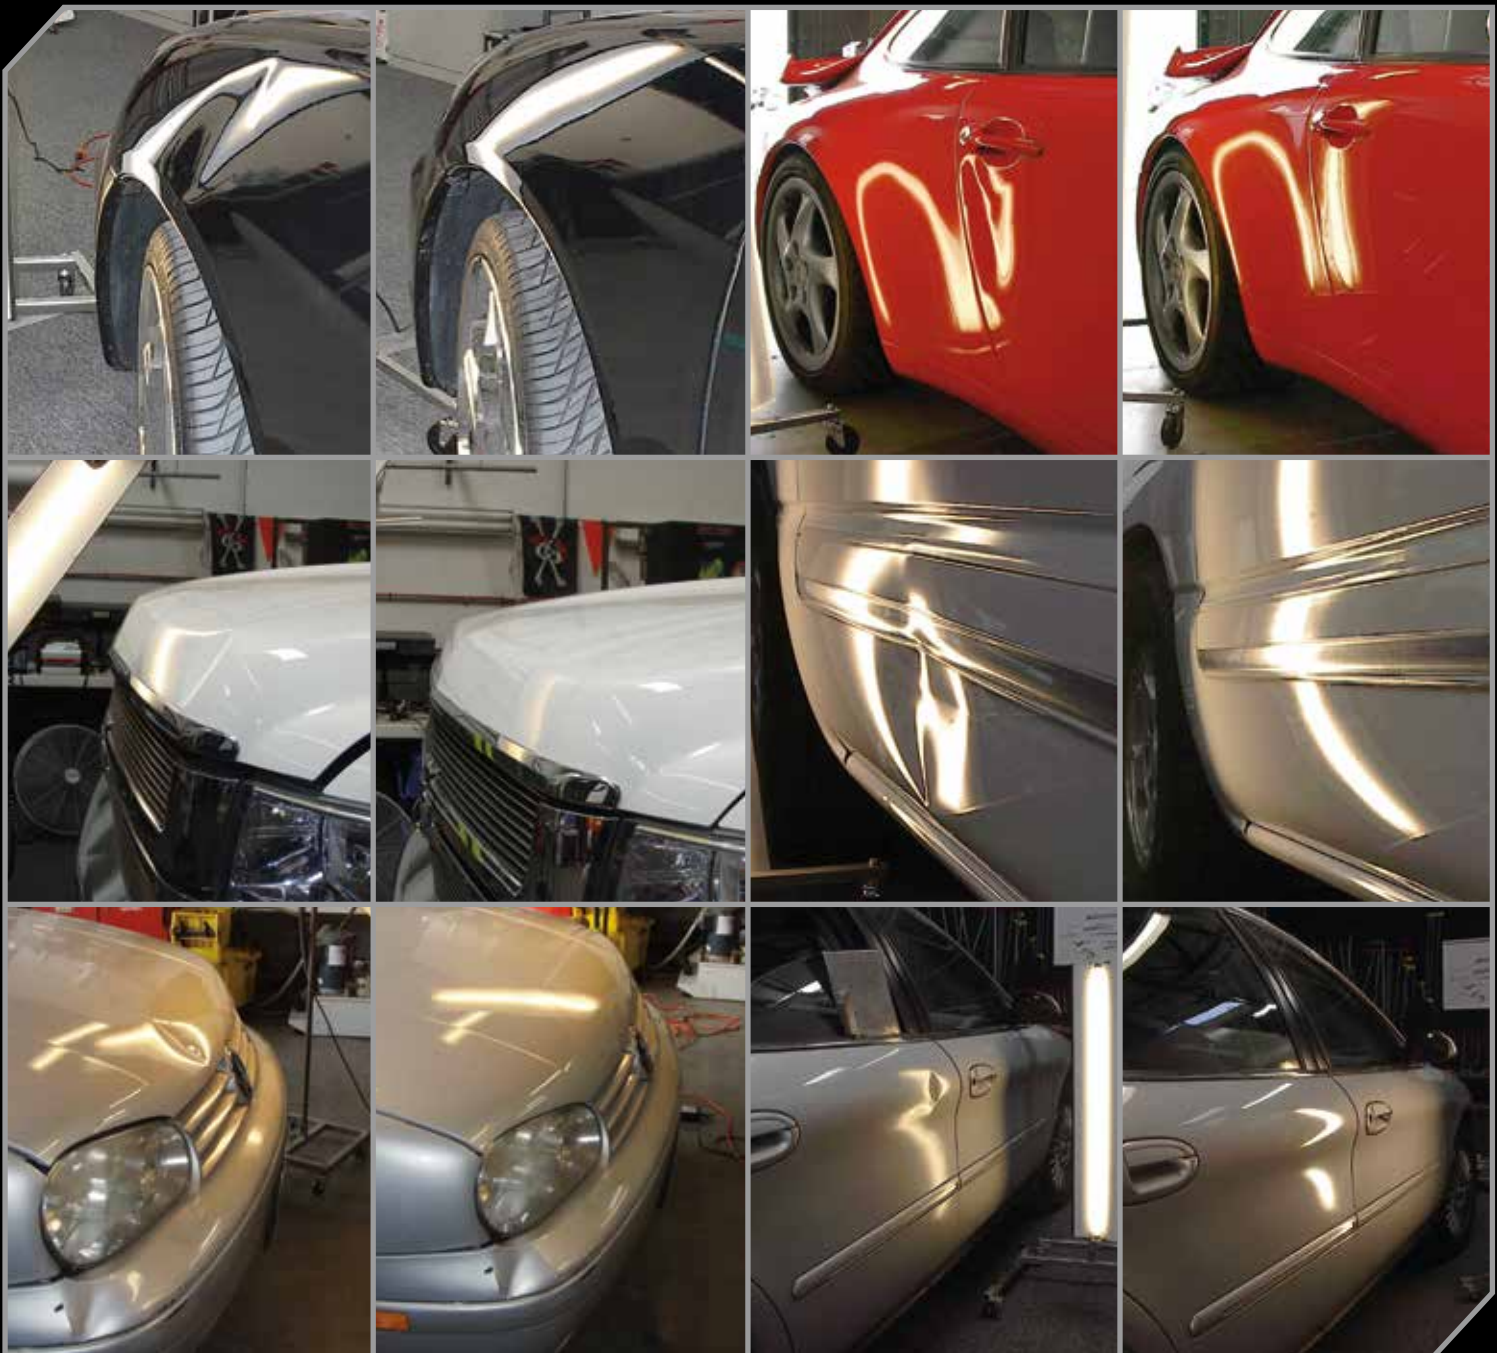

Dent Time's 4-pack PDR Training DVD's is a must have set if you want to learn the line board, understand trapped pressure, how to handle creases and learn deep dings.

## ***History of Paintless Dent Removal - PDR***

Automotive technicians have been massaging dents out of car bodies for over 20 years without the use of conventional paint repair. As car manufacturers became more automated there were problems that could occur in stamping or assembly that would leave minor dents or defects. At this point PDR evolved and individuals and companies began to improve the archaic tools and methods that were being used. This process would soon be called Paintless Dent Removal. This process has been dramatically improved over the last 15 years or so. At Ultra Dent Tools we feel we have played a substantial roll in the evolution and perfection of this trade.

The repaired dents you see below are a direct result of the fact that today's car bodies have the ideal metal thickness and paint flexibility. That, coupled with the vast array of high-tech PDR tools and equipment we proudly offer, qualified technicians are now able to repair these substantial sized dents to 100% satisfaction.
